

Product Information

AVENO Circulating Oil CL 220

0002-000271

Description

A mild additive and is therefore particularly suitable for old machines. A good wear protection. Inhibits rust and corrosion and protects against ferrous metal corrosion. Prevents foam formation. Good water separation characteristics. AVENO Circulating Oil CL 220 is produced on a basis of high-quality mineral oils and proven additives. Thanks to its special combination of active ingredients, it is suitable for use as a simple machine lubricant where no EP-additive oils are required.

Instructions for use

AVENO Circulating Oil CL 220 has very good properties as a lubricant. Therefore AVENO Circulating Oil CL 220 can preferably be used for industrial gears and circulation systems of low and medium loads, where lubricants are required in accordance with DIN 51517-2.
